Summary

B.Tech Computer Science student with hands-on experience building backend services and RESTful APIs using Node.js and Express.js. Proficient in SQL and NoSQL databases (MySQL, MongoDB) with a strong foundation in Data Structures and Algorithms. Experienced in designing scalable, modular backend architectures and integrating third-party APIs. Participated in 15+ hackathons and delivered 15+ real-world projects with a focus on clean, maintainable code.

Skills

Programming: JavaScript, C++, SQL, Python, Java
Frontend: React.js, TypeScript, HTML5, CSS3, Tailwind CSS
Backend: Node.js, Express.js, REST APIs
Databases: MongoDB, PostgreSQL, MySQL
Tools & Cloud: Git, GitHub, Postman, Firebase, Docker, Google Cloud Platform (GCP), AWS (EC2, S3)
Core Concepts: Data Structures & Algorithms, OOP, DBMS, Operating Systems (OS)
Soft Skills: Effective Communication, Team Collaboration, Analytical Thinking, Adaptability

Projects

- Absentra** | *MERN, Socket.IO, Firebase* [GitHub](#) | [Live](#) **January 2026 – February 2026**
- Build a Employee management platform with multi-level approval workflows, real-time messaging and role-based access.
 - Developed and integrated **RESTful APIs** with **JWT** and designed seamless **frontend-backend data flow**.
 - Implemented **real-time messaging** using Socket.IO and optimized state management for smooth user experience.
 - Structured backend in a **modular and scalable architecture** using Node.js and MongoDB (Mongoose), supporting multi-level approval workflows.
- MeriCity** | *MERN, Gemini API, GMaps API, Twilio* [GitHub](#) | [Live](#) **September 2025 – October 2025**
- Built a municipal complaint management system to streamline issue reporting and improve resolution efficiency.
 - Integrated **text, image, and voice-based submissions** with **auto-GPS tagging** and **AI-generated complaint summaries** for efficient categorization.
 - Revamped the **interface experience** to enhance **citizen engagement, transparency, and efficiency by 50%** in civic issue resolution.
- Legal AI** | *React.js, Node.js, Python, Flask, Gemini API* [GitHub](#) | [Live](#) **July 2025 – September 2025**
- Built an **AI-powered legal assistant** that simplifies contracts, detects risks, and guides users through legal processes.
 - Analyzes legal documents to **generate concise summaries**, highlight critical clauses, and flag potential risks.
 - Compares contracts and policy versions to highlight key differences and potential implications.

Certifications & Achievements

- **MERN Stack with Gen AI – W3grads (Summer Training, 2025)** | [Certificate](#)
- **Postman API Fundamental - Postman (2025)** | [Certificate](#)
- **DSA in C++ – Splen Technologies (Summer Training, 2025)** | [Certificate](#)
- **OCI AI Foundations – Oracle (2025)** | [Certificate](#)
- **Computer Networking - Google (2024)** | [Certificate](#)
- Solved **600+ DSA problems** across platforms - codolio.com/profile/CckgJNjF.
- Developed and maintained a portfolio of **15+ real-world projects**, focusing on innovation and user-centric solutions.
- Participated in 15+ hackathons, **winning 3** with impactful solutions that addressed real-world challenges.

Education

B.Tech in Computer Science and Engineering **August 2023 - August 2027**
Lovely Professional University, Phagwara *CGPA: 7.9 / 10*

Class XII (Senior Secondary), RBSE **May 2021 - April 2022**
Sony Academy, Bharatpur *Percentage: 89%*
